

AUTOBRIGHT

SELF SHINING STREAK FREE CAR WASH

The need for a Low pH Car and Truck Wash

Constant use of high pH cleaning products tend to dull paint work and remove signage, not to mention the increased level of oxidation on aluminium.

AUTOBRIGHT is an extremely free-rinsing, neutral pH car and truck wash which is safe on all surfaces, paints, metals, etc. It is excellent for foaming, gives a dense dry foam, allowing the AUTOBRIGHT to ease away the soil. It may be rinsed freely leaving the surface bright and streak free.

This product is economical as it cleans and degreases in one operation. AUTOBRIGHT can be used for cleaning cars, trucks and earthmoving equipment of general dust, dirt and road film.

Directions for Use

Rinse vehicle with cold water. Ensure the surface is cool. Do not apply foam or cleaning solution to hot or warm surfaces, otherwise streaking may occur. Apply foam or cleaning solution starting at the bottom of the vehicle and working to the top.

Hand Application

Washing with a sponge, rag or brush, agitate as applying and then rinse with copious quantities of fresh cold water.

Foam Application

Foam surface starting from the bottom up. Allow to stand, but not to dry out. Then rinse with copious quantities of fresh cold water.

Dilutions: Hot or Cold

| | | |
|-----------------|--------------------------|---|
| Heavy Soil | manual wash with a broom | 1 part to 60 parts water |
| Normal Soil | manual wash with a broom | 1 part to 100 parts water |
| Foam Generator | light soil | 1 part to 40 parts water |
| | heavy soil | 1 part to 20 parts water |
| Pressure Washer | | Prespray 1 to 20 parts water Pressure wash clear water |
