

# CRUSADER

HOSPITAL GRADE DISINFECTANT  
WIDE RANGE CLEANER AND DEODORANT  
THE NO RINSE, NON SLIP CLEANER

CRUSADER is the complete cleaning kit in a drum. It is capable of removing dirt and grime from most surfaces, like floors, walls, tables as well as painted surfaces. This wide range cleaning performer cuts your inventory because CRUSADER cleans almost any surface not harmed by water. No need for specialty cleaners because CRUSADER does the lot.

CRUSADER's soil-suspending power is such that rinsing is not necessary even on high sheen quarry or ceramic tiles that normally dry streaky and slippery. Special water conditioners prevent power-fade, so CRUSADER keeps on working when others have long given up, even in cold and hard water.

## Deodorant Action

In addition to CRUSADER's superior cleaning of most soils, there is the added benefit of deodorisation at no extra cost. CRUSADER does not deodorise by masking, but by destroying the bacteria, mould, fungus and protein residues that cause bad odours. CRUSADER has no odour of its own, so complies with **HACCP requirement** for food preparation areas.

## Areas of Use

Wide range of cleaning performance means a wide range of applications throughout the food and general cleaning and maintenance industry such as toilets, kitchens, shower blocks and garbage and disposal areas.

## Disinfection

CRUSADER passes the T.G.A. test procedures for hospital grade disinfection in dirty conditions when diluted 1 part CRUSADER to 25 parts water.

## Directions

Heavy Duty Cleaning: 1 to 10 dilution

For removing greasy food residues in kitchens, cleaning oily or fatty soils, wall, vinyl upholstery, in spray-on wipe-off applications.

Maintenance Cleaning and Bacterial Control: 1 to 25 dilution

To remove soap scum, body fats, mildew and mould from shower stalls, toilet floors, urinals and surrounds and mopping of heavily soiled surfaces.

*High Technology Chemistry and Cleaning Systems for the Carpet Maintenance and Sanitation Industries*
