

SUNSHINE

CONTROLLED SUDS SERVICE WASH LAUNDRY DETERGENT FOR COIN OPERATED LAUNDRIES NON PHOSPHATE FORMULA

Here's a fast dissolving, pleasantly performed and economically priced laundry powder, specifically developed for service washing operations. Careful selection of components has resulted in an excellent price as well as instant release of cleaning energy in the wash.

Phosphate Free

Use of Polyphosphates in laundry detergents has been proven to have contributed to the overgrowth of algae and weed in streams and rivers in the USA. In the interests of the Australian environment, SUNSHINE has been manufactured without the use of phosphate or phosphorous containing additives.

Optical Brighteners

Wide spectrum optical brighteners developed to brighten polyester and cotton colours as well as whiten whites are included in the formulation.

This is value for money - you just can't beat!

Dilutions

Laundrette - Top Loaders - 1/2 cup per load
Controlled suds allows SUNSHINE to be used in front loaders at the same rate.

Packaging

25Kg bags

High Technology Chemistry and Cleaning Systems for the Carpet Maintenance and Sanitation Industries
